Introduction of Resolution

SR 1, by Senator Ware: A RESOLUTION directing appointment of a committee to notify the House of Representatives of the organization of the Senate and to wait upon the Governor.

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky:

That the President of the Senate appoint a committee of seven members to notify the House of Representatives that the Senate is organized and ready for transaction of business, and that this committee meet with a like committee to be appointed by the Speaker of the House, and that the joint committee notify the Governor of the Commonwealth of Kentucky that the 1960 Extraordinary Session of the General Assembly of the Commonwealth of Kentucky is duly organized and ready to receive any message that he may desire to deliver.

Senator Ware moved the adoption of **SR 1.** Agreed.

Committee Appointments

In accordance with the directive set forth in **SR 1,** the President appointed the following to said Committee: Senators Kidwell, Ware, Francis, Martin, Blue, D. W. Howard, and Duncan.

The President announced that the Senate would proceed to the House of Representatives for the purpose of hearing the message to be delivered by the Governor.

Joint Session

The Senate proceeded to the House of Representatives, where they entered upon the floor. The Honorable Wilson Wyatt, Lieutenant Governor and President of the Senate, assumed the chair and called the joint session to order.

Representative Ray moved that the roll call be dispensed with. Agreed.

Prayer by the Reverend Fred T. Moffatt of the First Baptist Church, Frankfort.

The Committee appointed to wait upon the Governor appeared with His Excellency, the Honorable Bert T. Combs, Governor of the Commonwealth of Kentucky, who addressed the General Assembly as follows:

Mr. President of the Senate:

Mr. Speaker of the House:

Members of the General Assembly:

You have been asked to convene here today for the purpose of considering an amendment to the veterans bonus law removing the residency requirement and extending rights and benefits to Kentucky veterans now residing outside of the state.

This has not been a sudden decision on my part. It was made after careful study of facts that experience has made available con-

cerning the bonus, its predictable cost, and the ability of the state to meet that cost. I am aware, of course, that I have been accused, and will be accused again, of having political motives in calling you into session during an election year. But every year in Kentucky is a year for elections of some kind. Moreover, political accusations and considerations are of less concern to me than the moral and administrative factors that justify this session and the amendment which I will ask you to enact.

I have become convinced, and I believe that most of you are convinced, that bonus benefits should be extended to out-of-state veterans now. This can be done without jeopardizing our fiscal stability or endangering the legislative program enacted by you last spring. The bonus can be more efficiently and economically administered if the law is amended now rather than after the machinery to make bonus payments has begun operation.

In retrospect, it may appear an error to have included the residency requirement in the law when it was originally passed. But if I erred in recommending this restriction, I think it is fair to say that I erred on the side of caution and fiscal responsibility in keeping with my obligation to the taxpayers of Kentucky. I have believed from the start that it would be wiser to extend the law if experience proved it advisable than to plunge headlong into an area of fiscal uncertainty.

Above all, I have been determined to avoid any step that might endanger the financial basis of the legislative program enacted last spring through your wise, progressive, bipartisan efforts—a program that is making vast and desirable changes in the economy and political life of Kentucky.

Under this program, all state employees, with the exception of unskilled labor and a few categories consisting mainly of part-time employees, are now under the protection of the Merit System.

Our teachers have been given substantial and long overdue pay increases.

We are beginning to relieve our overcrowded classrooms. The extensive construction program for higher education is under way. This week, the Education Commission is beginning the most thorough survey of Kentucky schools and school methods ever undertaken.

The Kentucky Human Rights Commission is receiving plaudits from across the country.

New facilities are under contract for construction in fifteen of our state parks. Plans for the expansion of existing parks and the creation of new parks have been completed pending approval of the $100 million bond issue this fall.

A broad expansion program for airports and airport facilities is under way.

Voting machines are being installed in every county.

The proposal for a limited Constitutional Convention will be on the ballot this fall.

Our interstate highway and toll road programs are going full steam ahead.

An increased appropriation will permit us to go forward with modern, progressive programs in forestry, soil conservation and flood control.

By using fills as dams, we are on schedule with a program to construct a chain of lakes across Kentucky.

The salaries of county agents in the University Extension Program have been substantially raised, and their morale improved.

Money has been allocated for the construction of an agricultural research center at the University of Kentucky.

A substantial increase for the Department of Health will enable us to employ a health officer for every county in the state.

The appropriation for tuberculosis control has been increased by 38%.

Funds have been provided for the Kentucky Industrial Finance Authority and to finance a vast program to obtain new industry for Kentucky.

You might like to know that 65% of the revenue from the new tax program has gone into education.

Payments to dependent children, senior citizens, the needy blind and the totally disabled have been increased by more than 18%.

A 17% increase in funds for mental health is bringing better care and medical treatment for patients in our mental hospitals. The diet allowance is being increased approximately 30%—from 52 to 68 cents per day.

The appropriation for handicapped children has been increased by $925,000.

These things have been made possible by the sound tax program enacted by you at your last session, and because of that program we find ourselves now able to extend bonus benefits to out-of-state veterans.

I say this because I am, for the first time, in possession of sufficient information on which to base a reliable estimate of the cost of paying the bonus to out-of-state veterans. The information that I am about to give you is the balance between estimates of the Legislative Research Commission and the Kentucky Veterans Division. While the figures are only estimates, they are the latest and most reliable available. In case of doubt, we have used the higher figure.

Total Kentucky veterans—502,000
Out-of-state veterans—153,185
Average bonus payment—$332.
Out-of-state veterans who would receive bonus by liberal interpretation of present law—45,900 (30%)
Cost of paying bonus to all out-of-state veterans—$52 million
Cost of paying bonus to veterans who could not qualify under present law—$36 million.

In other words, removing the residency restriction so as to include all veterans will mean principal costs of $36 million.

I had hoped that a majority of out-of-state veterans would receive bonus benefits through a liberal interpretation of the law, and you will recall that I promised when the law was passed to ask for changes in the law if they were found to be desirable and possible on the basis of experience. I now find, as shown by the foregoing figures, that some 100,000 veterans would be denied bonus benefits under the present law.

No bonus law can possibly please everyone, just as the present law has not pleased everyone. There are those who question the fairness of asking Kentucky taxpayers to pay bonus benefits to men who, because they live outside the state, will not help finance the bonus. Other factors, however, override these considerations.

There are human factors that must not be overlooked if Government is to be properly responsive to the needs and emotions of the individual. The fact is that Kentucky's obligation to her veterans is more than financial. The pecuniary reward is merely a symbol of our gratitude to those who served in time of crisis, and if by withholding the symbol we create the impression of ingratitude, then we have broken faith with these men. We should never permit a Kentucky veteran to conclude that his service was not appreciated or that he has been forgotten or disinherited by his state merely because circumstances have forced him to reside elsewhere temporarily.

These are the considerations which have persuaded me to call you into extraordinary session to remove the residency requirement from the bonus law.

Additional expenditures required under this amendment will be possible within our present tax structure. Preliminary reports indicate that revenue from the tax program will be in line with previous estimates. There is, however, no basis for undue optimism. The experts have expressed some concern about the estimate for 1961-62. Business growth expected in 1960 has not materialized. Some important industries have had a decrease in employment and in corporate profits. These and other factors have a direct influence on the prospective revenue trend. There is no possibility of modifying the sales and use tax at this time.

Congress has recently passed legislation to provide medical care for indigent people 65 or over. The Medical Assistance Program enacted at your last session provides for medical aid only to those on public assistance lists. The Federal act will become effective October 1, and Federal funds will be available at the ratio of 76% Federal and 24% State funds. Federal money cannot be obtained until matching State funds are available. I have amended the call in order that you might consider legislation which will permit Kentucky to participate in the broad Federal program.

I recommend, therefore, that you allocate $600,000 so that Kentucky may participate in the joint Federal-State medical care program. You will, by this means, provide assistance to people 65 or over on fixed income who otherwise would not benefit by any State or Federal program. It is becoming more evident all the time that people in this category are entitled to more consideration from their State and Federal Government. This $600,000 can be taken out of non-recurring revenue which will be received this year by reason of the corporate tax advance and which otherwise would go into capital construction for 1961-62.

In conclusion, let me express my thanks, and through me the thanks of the people of Kentucky, for your spirit of cooperation and devotion to duty. When I once before called you into special session, you performed your duties with efficiency and dispatch. I am confident that you will transact the business of this session as quickly as possible and at the least expense to the people of Kentucky.

It is my hope that partisan political considerations can be avoided. Payment of the veterans bonus should be kept strictly on a non-partisan basis. Neither this administration nor any other group or faction should claim credit for carrying out the plain mandate of the people.

It is my fervent hope, and I know it is yours, that the bonus can be paid to all Kentucky veterans without further delay and without further controversy.

We, in the Executive Department, stand ready to assist you and cooperate in every way in order that you may perform your constitutional duties.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. Section 40.010 of the Kentucky Revised Statutes is amended to read as follows:

As used in this chapter, the following terms have the following respective meanings, unless another meaning is clearly required by the context:

(1) "Administrator" means the Adjutant General of the Commonwealth;

(2) "Veteran" means a person who served in the active armed forces of the United States, during the Spanish American War, World War I, World War II, or the Korean conflict, for a period of ninety days or more (exclusive of time spent AWOL; or in penal confinement as a result of a sentence imposed by court martial; or in service for which no allowance is made according to KRS 40.040), with some portion of service within the respective hereinafter prescribed dates, who is still in the armed forces, or was released, separated, discharged or retired therefrom under honorable conditions;

(3) "Duty in active armed forces" includes active duty, and any period of inactive duty training during which the individual concerned was disabled; and if a person in the active armed forces was released, separated or discharged therefrom by reason of disability incurred in line of duty before serving as much as ninety days, such person shall be qualified for entitlement to a bonus payment under this chapter, notwithstanding failure to remain in service for the minimum time otherwise prescribed;

(4) "Armed forces" means the United States Army, Navy, Marine Corps, Air Force and Coast Guard, including the reserve components thereof on active duty;

(5) "Qualified veteran" means a person answering to the specifications set forth in subsections (2) and (3), and who

(6) "Resident of the Commonwealth at the time of entry into the active service" means any person who gave the Commonwealth of Kentucky, or any specific place in this Commonwealth, as his or her place of residence at such time of entry, without regard to the place of enlistment, commission, or induction. Conclusive and exclusive evidence of such giving of place of residence shall be the official records on file in the Department of Defense of the United States, or any official record thereof in the files of the Veterans' Administration of the United States; but if it be shown to the satisfaction of the administrator that for any reason no such record was made, or that the same has been lost, misplaced or destroyed, or that an authenticated copy thereof cannot be obtained within a reasonable time, other evidence of bona fide residence may be accepted if deemed sufficient by the administrator;

(7) "Resident," in any context other than as in subsection (6), means a legal resident as determined by generally established principles of law, as may be defined, and subject to proof, according to such regulations as the administrator may promulgate.

(8) "Beneficiary" means in this order, widow, child or children (sharing equally), mother, father, and no other;

(c) Who, after attaining the age of eighteen years and until completion of education or training (but not after attaining the age of twenty-one years) is pursuing a course of instruction at a bona fide educational institution; and who, in relationship to the veteran, is a

legitimate child; a legally adopted child; a step-child who is a member of a veteran's household or was a member at the time of the veteran's death; or an illegitimate child, but, as to the alleged father, only if acknowledged in writing signed by him, or if he had, before his death, been judicially decreed to be the father of such child;

(11) "Mother" means a mother, a mother through adoption, or a woman who for a period of not less than one year stood in the relationship of a mother to a qualified veteran before his or her entry into active service in the armed forces, or if two persons stood in such relationship for one year or more, the person who last stood in such relationship before the veteran's last entry into active service in the armed forces;

(12) "Father" means a father, a father through adoption, or a man who for a period of not less than one year stood in the relationship of a father to a qualified veteran before his or her entry into active service in the armed forces, or if two persons stood in such relationship for one year or more, the person who last stood in such relationship before the veteran's last entry into active service in the armed forces;

(a) Means the period beginning on April 6, 1917, and ending on November 11, 1918; and

(b) In the case of a veteran who served with the United States military forces in Russia, means the period beginning on April 6, 1917, and ending on April 1, 1920; and

(c) Any service between April 6, 1917, and July 1, 1921, if some part thereof was between April 6, 1917, and November 11, 1918, both dates being inclusive;

(17) "World War II" means the period beginning December 7, 1941, and ending December 31, 1946;

(20) "Bonus claim" means a claim or potential claim for a veterans' bonus;

(21) "Claimant" means one who seeks to obtain payment of a bonus claim.

Section 2. In addition to the sums heretofore appropriated for the administration for the veterans bonus act, there is hereby appropriated an additional sum of $630,000 for the administration of said act. This includes the additional amounts necessary for state agencies involved, including the departments of Finance, Revenue, Treasury and Adjutant General to administer this act. No part thereof shall lapse at the end of the fiscal year 1960-61 but any remaining balances shall be carried forward for use in the subsequent fiscal year.

Section 3. It is found and declared that public interest requires prompt payment of the veterans bonus to all qualified applicants; and to that end it is essential that the Administrator continue to receive and process claims as expeditiously as possible. Accordingly an emergency is declared to exist and this Act shall be effective upon its passage and approval by the Governor.

HR 15, A CONCURRENT RESOLUTION affirming determination to preserve those concepts from which the American form of government has grown and upon which it will endure.

WHEREAS, by the ordinary emergencies of daily existence mankind's greatest ideas are often veiled to near obscurity; and

WHEREAS, times of uncertainty and confusion make it imperative that we see our beacon of hope and guidance clearly; and

WHEREAS, the Commonwealth of Kentucky, a central state within the United States—a member of the United Nations—by its duly elected General Assembly deems it fit and appropriate that certain ideas held by its people be presented to those representatives of other peoples who are now serving as delegates to the United Nations; and

WHEREAS, we, the members of the 1960 General Assembly, recognize that there are presently two basic ideas of mankind and of government contending for individual acceptance in the minds of men,

to the end that one shall become the dominant motivating concept among the governed societies of the world; and

WHEREAS, we further note that the accurate transferance of an idea is difficult to attain due to the inadequacies of language and to the variation in personal experiences that are normally and naturally used by all individuals in the consideration of ideas.

NOW, THEREFORE,

Be it resolved that we do hereby affirm our faith and our devotion to the following simple statements, and commend their consideration to all men.

Section 1. Man is the supreme creation of a loving and just God.

Section 2. The great purpose for which man was created and given life is that he have the apportunity to grow and to develop as an indestructible-immortal spirit or soul.

Section 3. The great purpose of government is to serve man by facilitating his individual development as a spiritual, mental, and physical being.

Section 4. In creation man is given the maximum freedom of choice in the conduct of his affairs and maximum opportunities for spiritual growth through the wisdom and rightness of his own decisions. Man's creature, government, must aid in preserving for its creator those freedoms and those opportunities given to man by his Creator.

Section 5. Physical life is sacred as the necessary vehicle by and through which the individual is enabled to attain the end for which he was intended.

Section 6. Intellectual development is essential to the increases of development potential of the complete individual.

Section 7. Government is an intangible entity created by the will of the subscribing individuals for the purpose of more effectively achieving the maximum development of the complete individual. It must ever remain responsive to the will of its creator—responsible as the guardian of individual rights, freedoms, and opportunities. The highest development of government is attained when the greatest individual development is facilitated—the greatest individual responsibility encouraged—and the maximum individual obligation willingly assumed.

Section 8. Now, therefore, as recipients from the individual citizens of the Commonwealth of Kentucky of the basic authorization to govern, we do further resolve and affirm that our determination to preserve these concepts for our posterity is absolute.

Section 9. Be it further resolved that the Legislative Research Commission be directed to convey copies of this resolution to all national delegations assembled as the United Nations, to all state legislatures of the United States and to the Kentucky Congressional Delegation.
